KSM ONYX — Over 29 Years of Experience in Natural Stone

KSM ONYX is a distinguished brand dedicated to showcasing the beauty of Iranian natural stones to the world. With over 29 years of expertise, we specialize in premium Onyx and Marble — blending timeless elegance with durability and refined craftsmanship.

Our production facilities are based in Iran, where the finest stones are carefully processed, while our head office and main warehouse in Istanbul serve as the hub for international sales and distribution.

Each stone we offer tells a story from the heart of the Earth — a masterpiece of nature formed over millions of years.

At KSM ONYX, we don't just sell stone — we deliver authentic Iranian quality that brings art, energy, and beauty into modern architecture and interior design.

Customer Satisfaction and Quality Assurance

At KSM ONYX, customer satisfaction lies at the core of everything we do.

Our production process adheres to international quality standards, ensuring that every order is delivered safely, on time, and in flawless condition.

We provide tailor-made solutions for each project, combining professional craftsmanship with exceptional service.

For us, each partnership is more than a transaction — it's a long-term collaboration built on trust, precision, and excellence.

KSM ONYX — Where Nature Becomes Art

KSM ONYX combines Iranian heritage with Turkish craftsmanship to deliver premium Onyx and Marble stones worldwide — where design meets durability, and nature meets art.
